

Dear Valued Patient,

We are writing to let you know that our San Mateo office will be merging with our Redwood City office as of Monday January 11th, 2021. In light of challenging current market conditions, we have made the difficult decision to focus our efforts on our Redwood City, Fremont, and Oakland offices. This was an extremely difficult choice, and we understand the effect this will have upon many of our loyal patients. The great news is Dr. Patty Chi and her fantastic office staff will be moving to the Redwood City clinic, which is only 9 miles south of San Mateo. That clinic - along with our other locations throughout the Bay Area - are all accepting new patients, and are ready to welcome the transition of current Columbia Asthma & Allergy San Mateo patients. Additionally, our other locations will offer more procedures, more extensive services and clinic hours, and a greater number of exam rooms.

We are honored that you have chosen Columbia Asthma and Allergy as your healthcare provider, and are more than happy to work with you to get established at our other clinics. Our goal is to provide the highest quality care for all of our patients in a timely and respectful manner. Please reach out to our staff to let us know how we can help. You remain our number one priority.

If you are currently on allergy shots, we will reach out to you to coordinate your care and transfer your vials to one of our other offices. If going to another one of our offices for your allergy shots is an inconvenience, we are happy to coordinate logistics with your primary care physician.

We thank you for your cooperation and understanding during this transition. Do not hesitate to reach out to us for any of your needs, questions, and concerns.

The **Redwood City office** is located at **80 Arch Street, Redwood City, CA 94062**.

Regards,

The Columbia Allergy Team of San Mateo
Patty Chi, MD FAAAAI
